The Cotton Market.

The local cotton market opened 4 to points under last night's close. Owing to unsatisfactory cables the market developed considerable weakness this morning, especially on near positions, which were unloaded freely around 10 cents for May, with the bulls apparently offering but little support to the general list. Outside of cables the news had a rather bullish look, notably the port receipts estimate of only 25,000 bales to-day against 33,400 bales last year and very bad weather all through Texas and the South generally. After the sail sellers were checked little by these influences and bears showed a degree of caution that still reflected a wholesome fear of buil domination.

GOULD ONLY COMPETITOR.

Frisco Deal Will Wipe Out Strife

in Far Southwest. CHICAGO, Feb. 27.—Confirmation of the reported purchase of the St. Louis and San Francisco by the Rock Island could not be obtained here. Rock Island officials claimed to have no knowledge of the matter. The 4,000 miles of road embraced in the 'Frisco system if added to the Rock Island would make the latter one of the largest in the country. If the San Francisco system has been acquired by Rock Island the most important feature of the deal is the eventual removal of railroad competition in the far Southwest. By a community of interests in the Santa Fe by purchase of the 'Frisco and by purchase of a half-interest in the Texas lines of the Southern Pacific, the Southwestern situation has become greatly simplified. It will leave the Gould interests the only competitor. of the matter. The 4,000 miles of road
